OVIVO
Bringing water to life

December 11, 2014

Mr. Beman
7480 E. Rio Verde Dr.
Tucson, AZ 85715

Dear Mr. Beman,

With reference to your recent discussion with our Global Procurement Manager, Mr. Robert Hamm; this letter is to confirm our interest to work with you and your company, on a project to project base, to develop potential industrial water and wastewater treatment opportunities in China.

As you may be aware, Ovivo offers a complete spectrum of process equipment and solutions to serve our customers globally. Our interest will remain to work with you and your team to seek opportunities within the Energy (Power Generation, O&G, Refinery, and Petrochemical) market segments. I have attached our typical general brochures on some of our offerings.

Please note that Ovivo has supplied equipment to a number of nuclear and fossil power plants in China. We also maintain offices in Shanghai which serves the Electronic Industry and their needs for Ultra-Pure water directly. However, the Energy and other industrial markets are not covered.

Please let myself or our Global Marketing Manager, Mr. Guy Beauchesne know how we can be of any assistance and how we can work together to develop opportunities in China.

Sincerely,

Kaveh Someah
Vice President, Global Energy Group
